This decision is published on the Aged Care Quality and Safety Commission's (Commission) website under section 48 of the Rules.

Australian Government

Aged Care Quality and Safety Commission

Re-accreditation decision and reasons for decision

I have decided under section 41 of the Rules to re-accredit Mayfield Aged Care (the service) for a further period of three years. The service's accreditation will expire on 18 October 2022.

In making my decision, I have considered:

- the site audit report for the service
- the site audit report findings and evidence for the service
- relevant information provided to the Commissioner and/or Assessment Team by aged care consumers and nominated representatives
- relevant information about the approved provider and service held by the Commission
- whether the approved provider will undertake continuous improvement in relation to the service, measured against the Aged Care Quality Standards (Quality Standards).

Reasoning

I have decided to re-accredit the service for a further period of three years as the approved provider meets the Quality Standards in respect of the service.

I am satisfied that the approved provider will undertake continuous improvement in relation to the service, measured against the Quality Standards, based on my finding that the approved provider meets the Quality Standards in respect of the service.

Areas in which improvements are required to comply with the Quality Standards and the timetable for making improvements

There are no specific areas in which improvements must be made to ensure compliance with the Quality Standards. The approved provider is, however, required to actively pursue continuous improvement in order to remain compliant with the Quality Standards.

Circumstances in which a review audit may be conducted

A review audit may be arranged by the Commissioner if:

- the Commissioner considers, on reasonable grounds, that the approved provider may not be complying with the Quality Standards in relation to the service
- the Commissioner becomes aware that:
 - the approved provider of the service has notified the Secretary of a change of circumstances under the *Aged Care Act 1997*
 - a transfer of allocated places in relation to the service has taken effect

Australian Government

Aged Care Quality and Safety Commission

- the premises at which the service is provided have changed since the service was last accredited or re-accredited
- the Commissioner considers that the approved provider has not complied with the arrangements for assessment contacts relating to the service
- the approved provider of the service has requested the reconsideration of a regulatory reviewable decision.

The Commissioner must arrange for a review audit of an accredited service if the Secretary requests the Commissioner to do so.

Applying for re-accreditation of the service

Next application for re-accreditation is due: 26 April 2022

An approved provider of an accredited service can apply to the Commissioner for re-accreditation.

The Commission will give an approved provider of an accredited service a reminder notice before the end of the period of accreditation of the service. The reminder notice will include a date by which the approved provider needs to make the application for re-accreditation.

An application for re-accreditation form can be accessed on the Commission's website.

Notification to Department of Health

In accordance with the Rules, a copy of this decision will be provided to the Secretary of the Department of Health.

Reconsideration of decision

The approved provider of the service may request the Commissioner to reconsider the period of accreditation.

A request for reconsideration must be received by the Commissioner within 14 days of the receipt of this notification. This request must be in writing and set out the reasons for the request. A request for reconsideration may be sent by email to reconsideration@agedcarequality.gov.au.

For more information about the reconsideration process please refer to the [Commission website](#).
